To Whom It May Concern:

It is my pleasure to write this letter of recommendation on behalf of the Four Seasons Environmental, Inc. I am presently the Superintendent of the Hardin-Houston Local School District in Shelby County and recently concluded my second Ohio School Facilities Commission project. I understand now more than ever the necessity of selecting the best candidate for the Maintenance Plan Advisor. Because this position is so critical to the success of your project, Four Seasons Environmental is one of the few companies who have the expertise to deliver the expertise necessary for success.

First, the interview presentation was clear, concise, and well developed. Reed Tarkington provided a detailed overview of Maintenance Plan Advisor duties and how Four Season Environmental would fulfill those tasks if selected.

Second, Four Seasons provided great references. The years of experience and the list of countless satisfied customers supported the claims made during the interview presentation. The many reference calls our interview team made verified that Four Seasons provided a comprehensive profile of services and a quality portfolio for the Maintenance Plan Advisor. The fact that they work for you the district is a key component to the success of your OSFC project.

Third, my experience of working with them during the three year project is the real reason for this letter. Reed Tarkington fulfilled every promise made during the interview presentation. Four Seasons Environmental investigated and scrutinized every aspect of our electrical, HVAC, plumbing, etc., so when the project was completed and the construction management team, OSFC, and the general contractors and tradesmen went home and we finally took over the task of maintaining our building, we had the plan in place and expertise to do the job properly.

In closing, I have complete confidence in Four Seasons Environmental to perform as either Commissioning Agent or Maintenance Plan Advisor for your district's project. Please feel free to contact me if you have any questions.

Sincerely,

Larry Claypool, Superintendent Hardin-Houston Local Schools
