To Whom It May Concern:

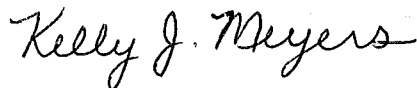

It is with great pleasure that I recommend Gary Robinson and Four Seasons Environmental, Inc. for any HVAC system needs or projects you may encounter. As a new superintendent facing building issues which remained from our OSFC project, I had little knowledge of where to turn for help in rectifying problems with our HVAC system which had existed since moving into our new school 5 years ago. Four Seasons was an excellent choice for tackling this major energy project.

Gary worked around the school schedule and closely involved our district maintenance personnel. He took extra time to teach, explain and train them throughout his work at Holgate. Gary also kept me informed so that I could keep the Board updated of the findings, issues and remedies along the way. He participated in conference calls and put together an excellent presentation when the project was completed. Even though HVAC systems were foreign to me, Gary was able to explain things in a simplistic manner which made sense.

Mr. Robinson's vast knowledge and experience has been a true asset to our district. Our HVAC system is finally functioning as it was intended to, and that would not have happened without Gary. His professionalism, work ethic, positive attitude and genuine desire to help others are often rare traits when hiring outside contractors to perform work. Gary cared as much about our building as he would his own home.

If you need any additional information, feel free to contact me or any of the maintenance department for details about Four Seasons' work with Holgate. They will do the work correctly the first time!

Respectfully,

Kelly J. Meyers  
Superintendent  
Holgate Local Schools
